

GIST UPDATE

All New GIST Version 2.0

GIST version 2.0 with Course Builder (PC)

Version 2.0 is ready for purchase, download and installation.

GIST has been re-written to better accommodate teachers to deliver evidence-based instruction leading to improvement on high-stakes assessments and overall learning. While keeping many of the program's popular and useful aspects, GIST version 2.0 has improved its user functionality and technological compatibility with other systems.

GIST 2.0 Improvements Include:

- Network Version
- Course Builder
- Course Tab
- Math & Science Symbols
- Spell Check
- GIST Zip files (.CTZ)
- Improved Linking Options
- Changing Portfolio Folder

additional information and purchases of GIST 2.0 can be made at store.gistplan.com

Course Builder

Course Builder makes developing Content Enhancement courses as easy as ever.

The Course Builder takes teachers through each section of the Course Organizer Routine. The builder menu assists teachers with prompts, guidelines and examples of each course section. Once the builder sections are completed, the Course Organizer Template is populated and corresponding Question, Concept and Unit Organizer Routine Templates are generated, populated and linked.
