

GIST Mobile Now Available for Teachers and Students

GIST Mobile is Now Available!

GIST mobile is now available for teachers and students on IPADs, Tablets, Chromebooks and other web connected devices at mobile.gistplan.com.

The GIST mobile site allows teachers to publish and post their Content Enhancement Courses from GISTv2 with Course Builder to the mobile site at mobile.gistplan.com.

Student can use GIST mobile on their devices to co-create, take notes, answer questions, obtain assignments, navigate, give input and participate while the teacher provides instruction.

Teachers can monitor a student's work and participation by viewing their course account in real time. Teachers can share their work with all parties invested in the student's learning including parents, curriculum developers, school support staff and tutors.

How GIST Mobile Works

The most recent version of GISTv2 with Course Builder (software) creates and designs Content Enhancement Courses. The GISTv2 software posts the Content Enhancement Course to GIST mobile accounts. Teachers distribute or give students access to their Content Enhancement Courses at mobile.gistplan.com.
